**Contractor:** Joe Brown Construction  
Laskey-Clifton Construction  
**Cost:** 2,200,000  
**Contact:** Francis Sombay  
541.888.9577

HGE was awarded the contract on this project in 1998 to provide full architectural design services, engineering, and survey work. The design takes advantage of the natural sloping and wooded terrain and creates a buffer between the back of the homes and adjacent property lines. HGE prepared a slide show of the project for design presentation for the city of North Bend council and planning commission approval. We coordinated our H.U.D. and road improvements with the Bureau of Indian Affairs, worked with all other governmental agencies and utilities. The project includes 2-, 3-, and 4-bedroom single-family dwellings, duplexes, common public space with seating, recreation, playground, terraced walls, and full landscaping.

## Three-Bedroom Units
