

## TOLEDO HEAD START CENTER

Toledo, Oregon

**Size:** 6,500 sq. ft.  
**Design Completion:** 2000  
**Contractor:** Craig Hoffman  
Construction, Inc.  
**Cost:** \$600,000

HGE worked with several groups: The City of Toledo, Head Start Department - local, regional, headquarters, and CSC (Community Services Consortium). We designed the largest facility feasible for the amount of funding available. We painstakingly estimated the project costs during all phases of design to assure budgets would be met and also to assure Head Start that their project funds would be maximized. Building features include naturally day lit classrooms (2), kitchen, teacher workroom, administrative area, and community resource room.
